[52 FR 18675, May 18, 1987, as amended at 57 FR 45743, Oct. 5, 1992; 61 FR 6128, Feb. 16, 1996]

§ 57.2905 Amount of student award.

(a) The total award made under this program to any student, plus all other sources of aid the student has received or will receive for the award period, may not exceed the amount the school determines that the student needs to meet the costs of education (i.e., tuition, fees, books, equipment, other expenses required by the school, and reasonable living expenses) for the period covered by the award. The total award made under this program to any student may be less than the amount the school determines that the student needs to meet the costs of education for the period covered by the award.

(b) The total award made under this program to any student for a school year may not exceed \$10,000. The maximum amount awarded during a 12-month period to any student enrolled in a school which provides a full-time course of study longer than the traditional 9-month school year may be proportionately increased.

(c) The school must disburse this award to the student in payments based on the student's need during each academic period (e.g. semester, quarter, trimester) of a school year.

§ 57.2906 How is the amount of the grant award determined?

(a) The amount of the grant to each eligible school will be the amount requested in its application, except that if the total of the amounts requested for any fiscal year by all schools for these funds exceeds the amount of Federal funds determined by the Secretary at the time of payment to be available for this purpose, the grant to each school will be reduced to whichever is smaller:

(1) The amount requested in the application; or

(2) An amount which bears the same ratio to the total amount of Federal

42 CFR Ch. I (10-1-00 Edition)

funds determined by the Secretary at the time of grant award to be available for that fiscal year for this program as the number of eligible students at the school bears to the total number of eligible students at all participating schools during that year.

(b) Amounts remaining after the calculation described in paragraph (a) will be distributed in accordance with paragraph (a)(2) of this section among schools whose applications requested more than the amount paid to them, but with whatever adjustments may be necessary to prevent the total grant to any school from exceeding the amount requested by it.

§ 57.2907 For what purposes may grant funds be spent?

(a) A school shall only spend funds it receives under this subpart in accordance with the approved application, the authorizing legislation, terms and conditions of the grant award, and these regulations.

(b) The school must discontinue all payments to a recipient in the event that the recipient ceases to be a full-time student at the school, and must remit any unused balance of funds to the Federal Government in the event it is unable to make full use of its grant award during the award period.
